

SNE FEST

track-making - shoes

SNE fest

→ cut two 'soles' from plywood
What kind of track do I want to make?

{ K's saw is fantastic...
rivet needs to be at different
what kind of handle could
work? }

ideas

The sole is relatively long → will need handles to make!

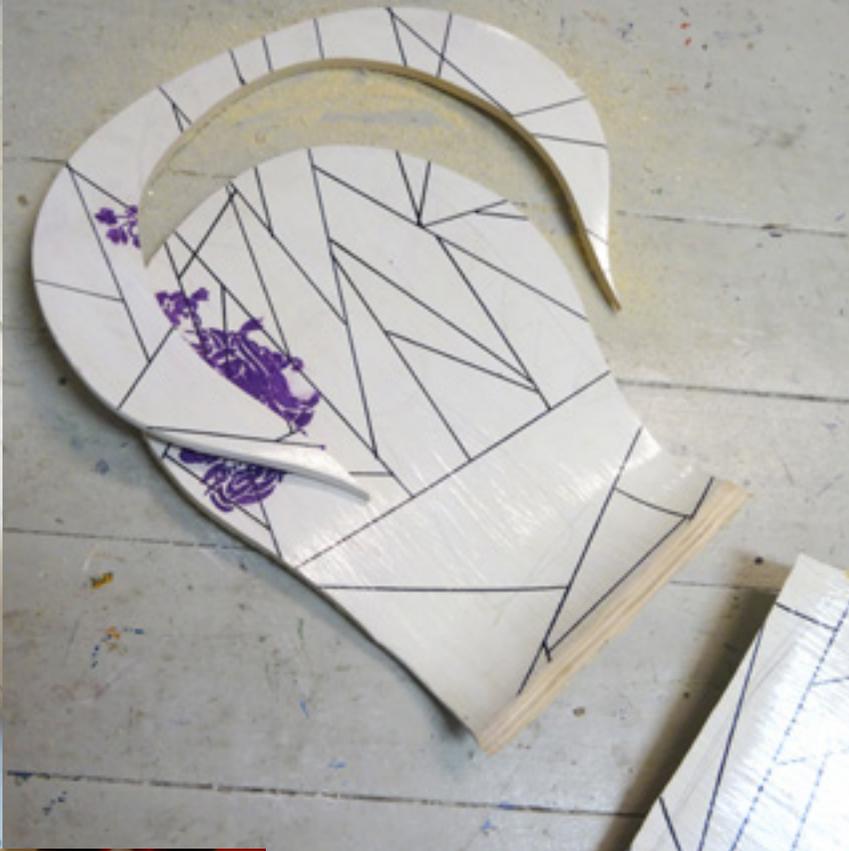

deer

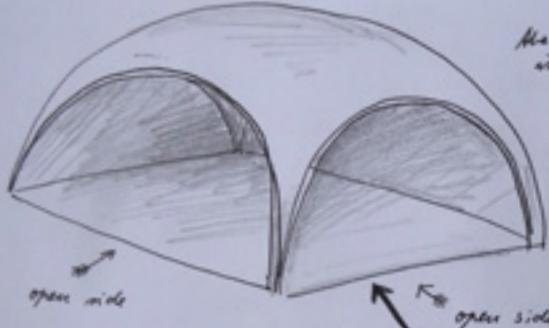

leather 'path' to hold rope

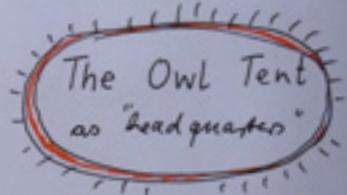

MAKING STUFF...

This is what the tent looks like
it has a floor (black!) and we might get
two "sides" to close it at the back sides.

The original tent
is grey with black
flooring

how to transform this tent
into an owl's head

Owl eyes
made from
thin wooden
discs with lamp
as highlight in the
pupil!

Eyes are suspended from the frame
and are hanging free in the two
openings

on the roof
I will attach
feathery scal
of fabric
made for
lining
These
are
and
are
diff
color

inside the tent

- there will be a throne, so that kids can sit on the floor
- gun with "worms"
- a "spell machine" that gives out recipes for potions etc.
- a witcher "bar" where the potions can be mixed.

walk in this way

beak made
from wood
has to be
yellow
